Hinks & Elaine Shimberg
Health Sciences Library

**Looking for a Full Text electronic journal?**

**Let Luis be your guide with 5 easy steps...**

Start your journey at the home page of
The Shimberg
Health Sciences Library

[http://www.hsc.usf.edu/library](http://www.hsc.usf.edu/library)
STEP 1. Your starting point.

The Shimberg Health Sciences Library home page. http://www.hsc.usf.edu/library

Click on Catalog

By first checking the USF catalog, WebLUIS, you have access to Full Text electronic titles that are available to the Shimberg Health Sciences Library from various sources.

STEP 2. WebLUIS. Search by journal title.

If your search is successful, click on the highlighted URL which will take you to the journal’s Full Text online site.

STEP 3. What if the title you seek is not listed in WebLUIS? (or has no URL)? Now it’s time to check the USF Libraries.

Click on the University of South Florida Libraries button located at the far left of the gray tool bar at the top of the page.

STEP 4. The USF Libraries site. For a journal search by title, click on E-Journals in the left column.

Type the name of the journal you want and click the Search button.

STEP 5. Click on the title to access the databases that have articles from the journal you need.

Check each database listed to locate your article. Some databases prompt you for the year, volume, issue and page numbers of articles.

FAST FACT: Many databases contain full-text articles to journals that we do not subscribe to. Follow these steps to determine if access is available through the University of South Florida Libraries site.
As an HSC account holder, you also have access to MD Consult and other HSC Password-Protected Resources. MD Consult provides access to over 50 journals. The journals available via MD Consult and HSC Password-Protected Resources are listed in WebLUIS, the USF catalog. However, you will be prompted for your HSC ID and password in order to access them. These are titles where the publishers have granted legal electronic access to account holders of this library only.

You may access MD Consult and other HSC databases directly from our homepage.
Go to: http://www.hsc.usf.edu/library
Click on any of the databases listed on the left side menu. The HSC only databases are noted by the “gold key” icon next to the database link.

This 5 step guide to finding electronic journals is also available from our homepage.
Simply click on “How to Find Electronic Journals” under Education.

**Off-Campus (Proxy) Access Help**

When you are connected using USF as your Internet Resource Provider (ISP), your IP address automatically allows access to USF library materials. However, if you prefer to connect to USF through an outside server, such as AOL or Roadrunner, you will need to set up a proxy account. Instructions for Off-Campus Access are available on our home page at:
http://www.hsc.usf.edu/library
