

USF Department of Orthopaedics & Sports Medicine Tampa Bay Orthopaedic Society Meeting

Course Objective

The goal of this program is to provide orthopaedic education to the USF orthopaedic faculty, fellows, residents, medical students and orthopaedic physicians in the community.

This activity fulfills all the missions of the University of South Florida by providing

- Student access and success in an engaged, and interdisciplinary, learner-centered environment,
- Research and scientific discovery, including the generation, dissemination, and translation of new knowledge across disciplines; to strengthen the economy; to promote civic culture and the arts; and to design and build sustainable, healthy communities, and
- Embracing innovation, and supporting scholarly and artistic engagement to build a community of learners together with significant and sustainable university-community partnerships and collaborations.

The TBOS program follows elements of the AdvaMed, PhRMA Code and ACCME guidelines.

Session Format

The Program Director or Chairman is responsible for and control of the selection of program content, faculty, educational methods and materials. The program will normally be for one or two days using any format of training, such as lectures, workshops, discussions or a combination of the above. A typical professorship program includes a casual dinner presentation on a Thursday night followed by a Grand Rounds lecture and two hours of case presentations during our core lecture series on Friday mornings.

Course Funding

Funds are raised through educational donations and or grants from pharmaceutical and medical equipment companies. These grants support the genuine medical education and research of medical students, residents, fellows and practicing physicians. The funding of each program includes airline travel, ground transportation, hotel accommodations and meal expenses, and a \$2000 honorarium for the Visiting Professor and will be paid by the sponsoring program. Additional funds are used toward educational operating expenses to provide a facility and modest meals to the participants. Faculty are invited to present based on their extensive research and background will not be approved to accept an honoraria or reimbursements.

Reimbursement

It is requested that the Visiting Professor submit his/her original receipts to USF, Department of Orthopaedics & Sports Medicine, Attn: Resident Coordinator. The honorarium will automatically follow after the course has concluded.

Evaluation

Participants evaluate the effectiveness of the activities educational needs, the overall program and recommend improvements to the program after the course has concluded.
