

# Previous Trainees

- ◆ Hospital Presidents & Department Chiefs Gansu Province, China
- ◆ Physicians, Tianjin Infectious Disease Hospital, China
- ◆ Faculty, Srinakharinwirot University, Thailand
- ◆ Hospital Presidents & Administrators, Thailand
- ◆ Deans, Medical Colleges, Thailand
- ◆ Physicians, Administrators & Health Care Professionals, India
- ◆ Physicians and Administrators, Central Asia

*"I enjoyed the experienced speakers, the topics of discussion, and engaging with centers like CAMLS, and TGH. The staff is fantastic, friendly, and was concerned about our wellbeing. I will be applying my knowledge to change myself, enhance my communication skills, improve leadership & conflict resolution, and strategic plan."*

- Hospital administration trainee, Thailand

*"I like the way they arranged the training programs. Combining the morning lectures with afternoon tours gives me a better understanding of how to improve the management of my hospital departments."*

- Hospital administration trainee, China

# USF Medicine International

Changing the DNA of global medical care through:

- ◆ Innovative educational programs
- ◆ Creative approaches to healthcare delivery
- ◆ Culturally sensitive care

 saving lives*

## Why USF Medicine International?

- ⇒ Legacy of success
- ⇒ Innovative learning program
- ⇒ Hands on experience
- ⇒ Culturally sensitive faculty

## LEAD Program Objectives

- ◆ Learn effective leadership skills and career advancement strategies
- ◆ Engage with other hospital administrators and academic faculty to enhance management, research, and teaching skills
- ◆ Foster lifelong learning, redefine success, and promote professional and personal fulfillment.

## Benefits of Training

- ◆ Administrators learn to blend their hospital, clinic, and administrative roles
- ◆ Practice competency-based human relations and management
- ◆ Sharpen business and clinical problem solving
- ◆ Develop sustainable programs
- ◆ Promote critical thinking as part of a culture.

## Leadership Enhancement And Development (LEAD)

### LEAD Program

LEAD programs are partnerships that USF Medicine International forges with hospitals, governments, and universities globally to strengthen the leadership and management skills of their healthcare leaders. Training for each LEAD program is tailored to meet the needs of that region/institution.

The program employs a synergy of online experience, active participation, and collaborations with other trainees at USF/TGH personnel that will enhance skills necessary for outstanding leadership and management. Trainees have the invaluable opportunity to meet key leaders at the University of South Florida and Tampa General Hospital. In addition, the trainees engage with many of the USF Health Centers and departments at Tampa General Hospital.

A certificate is awarded upon successful completion of the program.

## Training Areas

- ◆ Collaborative negotiation
- ◆ Resume skills
- ◆ Creative leadership development
- ◆ Strategic planning
- ◆ Infection control
- ◆ Employee health
- ◆ Evidence-based medicine research
- ◆ Medical/research ethics
- ◆ Public relations: marketing, media relations, communication skills
- ◆ Managing Quality in Health Care
- ◆ Employee assessment
- ◆ Management of Human resources
- ◆ Patient Safety

\* Tuition is based on program type and duration.  
Duration varies from 1-15 days
