

Medical Student Research Program in Diabetes and Obesity 2013

WHAT:

Conduct laboratory-based, clinical, or translational research under the direction of an established scientist in the area of diabetes or obesity. Prior research experience is not required.

WHEN:

Summer between the first and second year, or between the second and third year, of medical school.

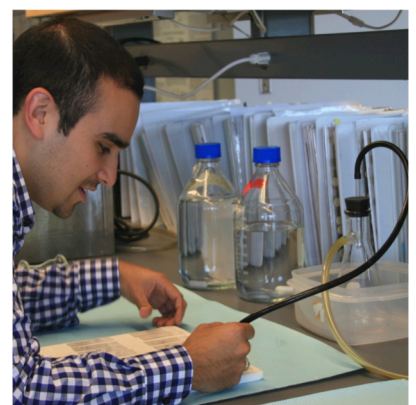

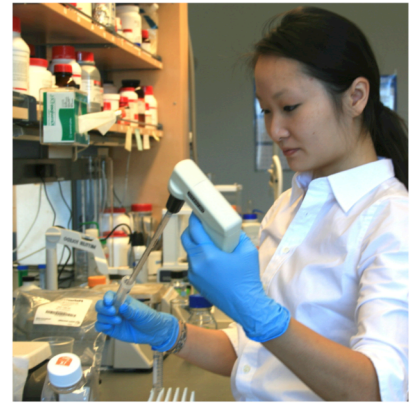

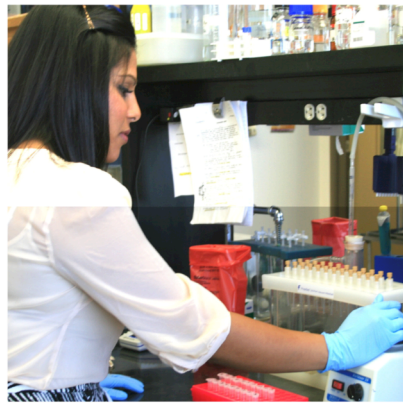

WHY:

Encourage medical students to consider a research career focused on diabetes or obesity.

WHERE:

One of NIH-funded Diabetes Research Centers:

Albert Einstein College of Medicine
Baylor College of Medicine
Boston Area Diabetes Research Center
Columbia University
Johns Hopkins/University of Maryland
Joslin Diabetes Center/Harvard University
University of Alabama at Birmingham
University of California, Los Angeles
University of California, San Diego
University of California, San Francisco
University of Chicago
University of Michigan
University of Pennsylvania
University of Washington
Vanderbilt University
Washington University
Yale University

Information and application:

- Students conduct research with an established scientist in the areas of diabetes, hormone action, physiology, islet cell biology or obesity for 2-3 months (receive a stipend).
- Weekly seminars about diabetes and obesity.
- Students present results at a national research symposium.
- Commencement dates and conclusion are flexible.

Application deadline for summer 2013:
Midnight February 4, 2013
